QUEEN GIVES NAME TO GREAT LINER AT LAUNCHING IN CLYDE

Crowd of 300,000 Hears Message From His Majesty Urging Good Cheer in Spite of Dark Clouds—Her Majesty Overlooks Christening Statement in Excitement

GLASGOW, Sept. 27 (P).—Queen Elizabeth tonight prepared to return to Buckingham Palace after launching the giant new liner bearing her name. Giving the people a message from the King to "keep cool heads and brave hearts," the Queen cut the tape releasing the bottle of champagne that smashed against the vessel's bows as the 85,000-ton sister ship of the Queen Mary moved down the slipways into the River Clyde.

"I have a message from the King," the Queen said to the nearly 300,000 persons gathered to watch the launching. "He bids the people of this country to be of good cheer in spite of the dark clouds hanging over them, and, indeed, over the whole world."

COOL HEADS, BRAVE HEARTS
"He knows well that, as ever before in critical times, they will keep cool heads and brave hearts. He knows, too, they will place their entire confidence in their leaders who, under God's Providence, are striving their utmost to find a just and peaceful solution of the grave problem which confronts them."

So excited was the Queen when she cut the tape that she forgot to make the traditional statement: "I name thee Queen Elizabeth." Later, Queen Elizabeth decided to cut short her stay at Balmoral Castle and return to Buckingham Palace, where the King remained. His Majesty had been scheduled to take part in the ceremonies but was kept in London because of the critical international situation.

IS LONGEST LINER
The new liner will register 3,765 tons more than the 81,231-ton Queen Mary. The Queen Elizabeth is 1,030 feet in length, the longest liner ever built. The Queen Mary is 1,020 feet long and the Normandie 981 feet long.

The new ship will accommodate 2,400 passengers to the Queen Mary's 2,000, and has fourteen decks to the latter's twelve.

The maiden voyage of the Queen Elizabeth to New York is scheduled for May, 1940. The whole ship will be air-conditioned.

SETS DATE OF BY-ELECTION

Prime Minister Urges That Conservative Leader Be Unopposed in London

OTTAWA, Sept. 27 (P).—Announcing tonight that November 14 had been fixed for four federal by-elections now pending, Prime Minister Mackenzie King said the Government would like to see Conservative Leader R. J. Manion unopposed if he is nominated in London, one of the vacant seats.

The other vacancies are in Brandon, Man.; Waterloo South, Ont.; and Montreal-Cartier, all caused by deaths of the sitting members. All but Montreal-Cartier were Conservative.

The Prime Minister said he and his colleagues had indicated several days ago to the Liberals of London that if it met with their wishes the Government would like to see Dr. Manion unopposed. He believed the Liberals of London would agree to the suggestion.

SHOULD HAVE SEAT
"The Government wants to see Dr. Manion in the House when Parliament meets," Mr. Mackenzie King said. "We feel the leader of the Opposition should have a seat in Parliament. I am not sure when Parliament will meet." The Prime Minister observed, however, that in the ordinary course it would be early in the new year.

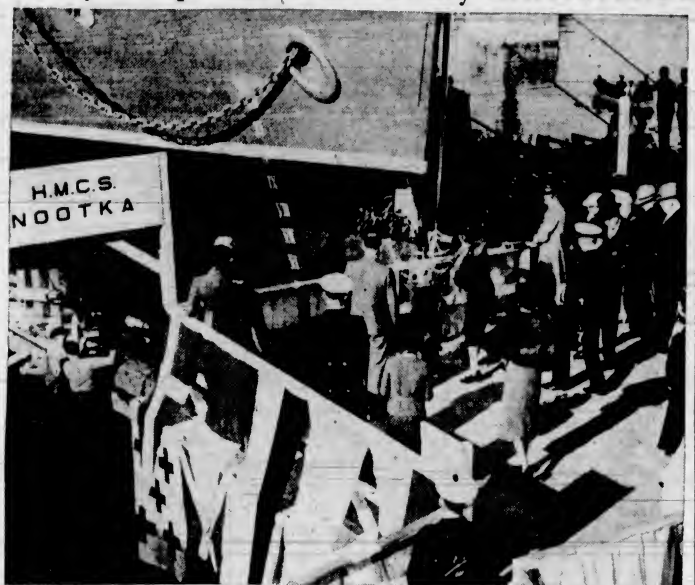

Dr. Manion, who was Minister of Railways and Canals in the Bennett Administration and met personal defeat at the polls in 1935, was chosen leader of the National Conservative party at the convention here in July. He has no seat in Parliament.

Advised at his home of Mr. Mackenzie King's expression of a desire for his unopposed election in London, Conservative Leader Manion expressed "warm appreciation of the Prime Minister's courtesy."

Navy Ship Well and Truly Christened

When Mrs. Eric W. Hamber, wife of the Lieutenant-Governor of British Columbia, smashed the traditional bottle of sparkling champagne against the bow of H.M.C.S. Nootka on Monday afternoon, at the Esquimalt plant of Yarrows Limited, the ship was well baptized. Flecks of the wine can be seen flying from the minesweeper's prow following the impact, with members of the launching party trying to dodge them.

Prague Considers Chamberlain's Speech as Last Effort for Peace

SUDETENLAND EXPECTS EVENTUAL SURRENDER

PRAGUE, Sept. 27 (P).—Behind darkened windows, the Czechoslovak Cabinet met tonight with clocks ticking off the minutes leading up to "der tag"—Saturday and expiration of Chancellor Hitler's ultimatum.

It was decided that General Jan Syrový, who became Premier last week, would make a radio address tomorrow, name day of St. Wenceslaus, patron saint of Bohemia. After tonight's Cabinet meeting a Foreign Office spokesman said of today's radio address by Prime Minister Chamberlain of Great Britain: "Chamberlain's speech is considered as the very last effort to maintain peace. Chamberlain went to the extreme limit to which man can go."

Thousand Nurses on War Lists
OTTAWA, Sept. 27 (P).—More than 1,000 Canadian nurses have volunteered for Red Cross service in the event of Canada going to war, and the Department of National Defence has a list of their names, it was learned today.

Only 200 nursing sisters are carried on the militia establishment. These hold the rank of lieutenant and most of them served in the Great War. Their names are officially recorded with the Department of National Defence. The names of the 1,000 are held on an unofficial list supplied by the Red Cross.

ANNOUNCER NOT CONTROLLABLE
School Trustees Cannot Regulate Their Grammar And Pronunciation

KAMLOOPS, B.C., Sept. 27 (P).—British Columbia School Trustees Association, in convention here today, rejected a Duncan resolution urging standardization of the grammar and pronunciation of Canadian radio announcers. It was pointed out to the trustees that Canadian Broadcasting Corporation has no control over privately-owned Canadian stations nor over American stations heard in Canada.

The trustees endorsed a compulsory apprenticeship system in British Columbia after hearing an address by H. Cristof, director of the apprenticeship system of British Columbia.

WORKING TO LIMIT FOR PEACE WHILE RALLYING FOR DEFENCE

Hundreds Fighting Blaze Over Vast Area of Manitoba

ELMA, Man., Sept. 27 (P).—Five hundred men are fighting a forest fire covering an area twenty-five miles wide and thirty-five miles long, and centering on this town, seventy miles east of Winnipeg. The town itself has been protected so far, but several farms are reported to have been burned over, with a considerable loss of livestock. No lives have been reported lost.

QUESTION OF PRESENT DAY

Roosevelt Sends Pointed Answer to Historical References of Hitler

WASHINGTON, Sept. 27 (P).—President Roosevelt tonight addressed a new peace appeal to Chancellor Hitler.

The President said the "fate of the world today and tomorrow" now is at stake.

His telegram went to Berlin at 10 p.m. Eastern Standard Time, following conferences with State Department officials. It was directed only to Hitler.

Appealing to the German Chancellor to continue at all costs present negotiations, the Chief Executive said: "In my considered judgment and in the light of the experience of this century, continued negotiations remain the only way by which immediate problem can be disposed of upon any lasting basis."

"OUTSTANDING SERVICE"
"Should you agree to a solution in this peaceful manner," the message continued, "I am convinced that hundreds of millions throughout the world would recognize your action as an outstanding historic service to all humanity."

"Allow me to state my unqualified conviction that history and the souls of every man, woman and child whose lives will be lost in the threatened war will hold us and all of us accountable should we omit any appeal for its prevention."

The message was in answer to Hitler's reply to Mr. Roosevelt's first peace appeal, in which the Chancellor had pointed to what he called the historical mistakes of the Versailles Treaty.

"The question before the world today," Mr. Chamberlain is not the question of errors of judgment or of injustices committed in the past," Mr. Roosevelt said. "It is the question of the fate of the world today and tomorrow."

HENDAYE, France (at the Spanish Frontier), Sept. 27 (P).—Reports reaching this border town today said that heavy rains and uncertainty over the European crisis combined to keep the Spanish civil war at a virtual standstill.

Military dispatches from the Ebro River front, in South Catalonia, said artillery alone was active. Activity on other fronts was said to be similarly limited.

Parliament Meeting Today to Hear Prime Minister Chamberlain's Report on Efforts for Peaceful Settlement—Great Britain Making Ready For Eventualities With Speed and Calm

Air Reserves Called Out; Navy Being Mobilized Today

LONDON, Sept. 27 (P).—Prime Minister Chamberlain, "a man of peace to the depths of my soul," today told the Empire that Great Britain must resist any nation which has "made up its mind to dominate the world by fear of its force."

On the eve of an emergency meeting of Parliament, the Prime Minister broadcast a message to the widest limits of Empire from the Cabinet room at 10 Downing Street with the statue of Field Marshal Lord Kitchener visible through the dwindling light of early evening.

STILL HOPES FOR PEACE
The sixty-nine-year-old leader of the Government said he still hoped for peace, pledged himself to work for it as long as any chance remained—and sounded a rallying call for wartime precautions.

A short time later the Admiralty announced the entire Royal Navy will be mobilized tomorrow as the latest and most far-reaching of these precautionary measures.

The world's biggest naval force will go on a war footing with the recall of reservists as soon as the King signs the necessary proclamation. The War Office said no similar action was being taken immediately with the regular or territorial armies.

The Air Secretary, Sir Kingsley Wood, was authorized by order-in-council to call to the colors all officers and men of the Auxiliary Air Force. The authorization was contained in an order signed by the King declaring "a case of emergency exists."

A MOVING APPEAL
In a moving appeal to the Empire's millions of people, Mr. Chamberlain admitted he saw at the moment "nothing further I can usefully do in the way of mediation," and cautioned them to "wait as calmly as you can" for the final mile on Europe's mad dash along the road which apparently leads to war.

CONTINUING TO SEEK SOLUTION
Hitler Said to Have Asked For Clarification of Chamberlain's Guarantee
BERLIN, Sept. 27 (P).—German Government quarters declared tonight that Czechoslovakia's rejection of Chancellor Hitler's demands for surrender of Sudetenland next Saturday was in actuality a renunciation of the original Anglo-French plan, accepted by Prague last week.

German Government circles expressed eagerness to know "how England and France would react to this de facto renunciation of their plan accepted by Prague just a few days ago."

They saw in it "not only a repudiation of the German standpoint but also a disavowal of the Anglo-French plan on the part of Prague."

CONTINUES NEGOTIATIONS
These comments were forthcoming after Prime Minister Chamberlain, through an emissary, Sir Horace Wilson, still sought to negotiate a peaceful solution of the crisis in a brief talk with Hitler.

The Chancellor was not among German listeners who heard Prime Minister Chamberlain's speech tonight. The speech was rebroadcast from London in both German and Italian.

The Fuehrer was dining at that hour, a spokesman said, and it was not until later that he obtained details of the address in a translation handed him.

Many persons were inclined to more hopefulness as a result of Mr. Chamberlain's statement of moral responsibility for execution of the plan.

CONFERS WITH DOMINIONS

SEATTLE, Sept. 27 (P).—Four and a half hours after the Green Lake State Bank in the north end was held up and robbed of more than \$500, Ralph Sullivan, twenty-five, Seattle, was held for questioning in the city jail tonight.

The bank was held up at 2:45 p.m. At 3:40, Seattle police notified Everett's suspect was en route there aboard a northbound bus. At 5 o'clock Sullivan, with \$524 and a black pistol in his possession, was taken from the bus at Everett. In a written and signed confession tonight, Sullivan told Detective Captain Marshall Scraftford: "I was broke and hungry and I thought I might as well stick up a bank as a service station or store, because I'd get more money."

PLEADS WITH HITLER
Sir Horace, a close adviser to the Prime Minister, was believed to have pleaded with Hitler to trust Mr. Chamberlain and his "way out." He talked with the Fuehrer for a half hour at the Berlin Chancellery.

Sir Horace flew back to London this afternoon and it was understood he carried a specific request from Hitler for clarification of Chamberlain's guarantee the Anglo-French plan would be carried out. It was believed Sir Horace's greatest difficulty was to overcome Hitler's distrust of Czechoslovakia and it was thought Britain's guarantee might swing the tide toward a peaceful settlement.

In such a case it was conceivable Hitler might more or less gloss over his October 1 time limit for the actual occupation of Sudetenland.

been heart-breaking to read of the growing anxiety they reveal and of their intense relief when they thought, to begin, that the danger of war was passing.

If I felt my responsibility heavy before, to read such letters had made it seem almost overwhelming. How horrible, fantastic, incredible it, that we should be digging trenches and fitting gas masks because of a quarrel in a far away country.

It seems still more impossible that a quarrel which is already settled in principle should be the subject of war.

SEES HOPE YET

I can well understand the reasons why the Czech Government have felt unable to accept the terms which have been put forward by the German memorandum, yet I believe that, after all the talks by Herr Hitler, if only time will allow, it might be possible to reach a settlement by agreement under conditions which would insure fair treatment to the populations concerned.

You know already that I have done all that one man can do to compose this repeated publicly, that after the Sudeten German question (is settled) that is the end of Germany's territorial claims in Europe.

He told me privately, and last night he repeated publicly, that after the Sudeten German question (is settled) that is the end of Germany's territorial claims in Europe.

TAKEN BY SURPRISE

After my visit to Berchtesgaden, I did give the Czech Government the proposals which gave the substance of what Herr Hitler wanted, and I was taken completely by surprise when I got back to Germany and he insisted that the territory he wanted should be handed over to him immediately and immediately occupied by German troops without previous arrangements for safeguarding the people within the territory who are not Germans and do not want to join the German Reich.

I must say I find that attitude unreasonable. If it arose out of any doubt that Herr Hitler feels about the intentions of the Czech Government to carry out their promises and hand over that territory, I have offered, on behalf of the Czech Government, to guarantee the fulfilment of its promises and I am sure the value of our promise cannot be undervalued anywhere.

I shall not give up the hope of a peaceful solution or abandon my efforts for peace as long as any chance for peace remains.

WOULD VISIT AGAIN
I would not hesitate to pay even a third visit to Germany if I thought it would do any good. But at this moment, I see nothing further that I can usefully do in the way of mediation.

Meanwhile there are certain things that we can and should do at home.

Volunteers are still wanted for all raid precautions, for the fire brigade and police services, and for territorial units.

I know that all you men and women alike are ready to play your part in the defence of the country and I ask you to offer your services. If you have not already done so, to the local authorities who will tell you if you are wanted and in what capacity.

Do not be alarmed if you hear of men being called up to man anti-aircraft defences or ships.

PRECAUTIONARY MEASURES
These are only precautionary measures such as a Government must necessarily take in a time like this, but they do not necessarily mean that we have determined on war or that war is imminent.

However much one may sym-

WORKING TO LIMIT TO KEEP PEACE

Continued from Page 1

Mr. Chamberlain's message was not directed solely to the Empire. A few minutes after he finished it was repeated in German to the people of Chancellor Hitler's own country from London and Paris.

News bulletins also were read containing information which it was said did not appear in the Nazi-controlled press, including President Roosevelt's plea for peaceful negotiation of the Czechoslovak-German conflict.

PARLIAMENT OPENING

Meanwhile everything was put in readiness for the opening of Parliament. It was expected tomorrow would be devoted to a two-hour report by Mr. Chamberlain on his efforts to settle the European crisis by peaceful, orderly means, with Clement Attlee, Opposition Leader; Sir Archibald Sinclair, Liberal Leader, and possibly Anthony Eden, Winston Churchill and Lloyd George taking part in the debate.

It was understood the Government stands ready with a whole batch of emergency legislation, but it was not apparent whether such bills would be introduced tomorrow.

The Cabinet assembled for one and one-half hours tonight to consider the reply flown back from Chancellor Hitler by Sir Horace Wilson. Mr. Chamberlain's close adviser took a "personal communication" from the Prime Minister to Hitler, but it was apparent, from the omission of any mention of it in the Prime Minister's broadcast, that it had failed to budge the Fuehrer from his avowed intention of taking the Sudetenland from Czechoslovakia by armed force, starting October 1.

NO CONCESSIONS

It was reported from the Cabinet meeting Sir Horace was unable to report any concessions from the German Government.

Mr. Chamberlain tonight worked on the speech he will make tomorrow in the House of Commons, which is to convene at 2 45 p.m. (5 45 a.m. P.S.T.).

The House of Lords will meet at 4 15 p.m. Prime Minister's session. Parliament will hear the Prime Minister's report on his two flights to Germany, endeavoring to keep peace.

The nation meanwhile, with speed but calmness, make ready for the eventualities of war, backing up Mr. Chamberlain's plea for more men in the territorial army (the equivalent of Canadian militia), the police forces and in air raid precautions organizations.

LINERS BOOKED UP

Trans-Atlantic lines reported they had booked every available space until October 15. The Empress of Britain and the Duchess of York, sailing for Quebec and Montreal respectively, this week were full.

Strict control over trading was placed on the London Stock Exchange and arrangements made for closing the market in event of war.

In his broadcast, the Prime Minister's voice sounded tired but deep. His words were hurried and his tones broke slightly when he spoke of the "nightmare" of war, but he recovered to go on strong and clear.

After receiving the latest word through Sir Horace Wilson from Hitler, its tenor undisclosed, Mr.

THREE DAYS TO WAIT

ASCH, Czechoslovakia, Sept. 27.—The ASCH "free territory" of Sudetenland dug in today to wait expiration on Saturday of Reichsfuehrer Hitler's ultimatum to Prague.

"Three more days!" was the phrase heard often today in the finger-like territory thrust into Germany from Czechoslovakia.

Wednesday, Thursday and Friday, these were the days the ASCH residents counted. Here on the "front" of the European crisis—in the approximate centre of the German-Czechoslovak frontier—the people never have believed a general war would come because of them.

They cling to the belief that the Czechoslovak Government would give in five minutes before the deadline.

READY FOR WORST

Continued from Page 1

Cardinal Kaspar issued an appeal to all Catholics to pray for peace, and tonight women laid flowers at the foot of St. Wenceslaus' monument in Prague's main thoroughfare.

On guard against a possible air raid, Czechoslovakia was blacked out, with only powerful searchlights brushing the skies after dusk.

President Eduard Benes and the Cabinet Ministers studied Chamberlain's address, and also scanned reports on large-scale war preparations as troop trains continued to rattle toward Czechoslovakia's twisting borders.

DEFENCES READY

Anti-aircraft batteries studied the hills surrounding the capital, Swift pursuit planes, tuned for take-offs at a moment's notice, waited at nearby air fields. And yet through the whole nightmarish structure people were keeping perfect discipline.

Support came from the Association of German Democratic Youth in Czechoslovakia. This organization sent President Benes a letter saying it was ready to fight for the integrity of Czechoslovakia, and it congratulated the country's leaders on the measures already taken.

Their offers of military service, however, were not needed, now, for it was stated officially the army cannot accept any more volunteers at the moment.

The ranks are filled to their present capacity, and trains carrying recruits in their new uniforms to the frontiers were jammed.

THREE DAYS TO WAIT

ASCH, Czechoslovakia, Sept. 27.—The ASCH "free territory" of Sudetenland dug in today to wait expiration on Saturday of Reichsfuehrer Hitler's ultimatum to Prague.

Boy: "Down at the Mothers' Club meeting, telling them how to raise children."

RELIEF

North and South can hardly put with pride to the result of this particular deal. West, heroically keeping a straight face, reeled off seven diamond tricks and then led a spade to his partner's high-low signal. The 1300-point penalty was unpleasant enough for North-South, but it must have been gail and wormwood when it was immediately discovered that six clubs or six hearts would have been slightly colder than ice. A swing of about 2,500 points cannot easily be explained.

As in most catastrophes, it seems to me that both partners erred considerably. North's three club bid was of course, all right. South, it is true, had a problem over East's three spades. He had three conceivable bids available. He could bid four hearts; he could raise to four clubs, or he could chance three no trump.

In reporting some of the imbrologies that I have watched at the bridge table, it would be a sincere pleasure to me and at the same time would add color if I could name the famous experts that were involved. I am, I hope, a reasonably courageous fellow, but, after all, I must live around these experts for some time to come and, of course, self-preservation is an even better law for bridge than it is for life. Besides, one can never tell when these people will break into print some where and they might go in for reprisal, bringing my own brainstorms to the light of day. It will have to suffice, therefore, that the following hand was bid and played by four gentlemen who are admitted to be among the first ten players of these United States.

The bidding:

Double Pass Pass Pass

North and South can hardly put with pride to the result of this particular deal. West, heroically keeping a straight face, reeled off seven diamond tricks and then led a spade to his partner's high-low signal. The 1300-point penalty was unpleasant enough for North-South, but it must have been gail and wormwood when it was immediately discovered that six clubs or six hearts would have been slightly colder than ice. A swing of about 2,500 points cannot easily be explained.

As in most catastrophes, it seems to me that both partners erred considerably. North's three club bid was of course, all right. South, it is true, had a problem over East's three spades. He had three conceivable bids available. He could bid four hearts; he could raise to four clubs, or he could chance three no trump.

AUTOMOBILE CRASH CASE IS DEALT WITH

Junior Chamber of Commerce Concludes Outstanding Year

Conway Parrott and Thomas Sturgess Named President and Vice-President, Respectively—Hugh Savage Is Guest Speaker

NEW officers were officially named for the Victoria Junior Chamber of Commerce at the annual meeting, held last evening in the Hudson's Bay dining-room, which brought to a close one of the most successful years ever enjoyed by the organization. Conway Parrott was named president, succeeding Ernest H. Harris, who had held that position for the past twelve months.

Thomas Sturgess was elected vice-president and the remaining directors, chosen for a two-year period, followed: Ed Glover, Jack Hartree, Warren W. Martin and Thomas E. Watkins.

An enlightening address on the "Youth Problems of Today" was given the gathering by Hugh Savage, Duncan.

OATH OF OFFICE

For the first time in the junior chamber's history, the incoming officers were given the oath of office. This duty was performed by Duncan MacBride, president of the senior chamber. Mr. MacBride congratulated the new president and vice-president, and wished them success during the coming year.

Mr. Parrott voiced his thanks to the board of directors and general membership for the signal honor conferred upon him, and said he hoped he could justify the confidence placed in him. He congratulated Mr. Harris on the most successful year ever experienced by the junior body, and asked for the same hearty co-operation from the members during his term of office.

He considered the junior chamber had graduated from being just a subsidiary of the senior body, and that the development of Victoria lay in its hands.

IS STEPPING STONE

Mr. Sturgess also expressed his thanks to the directors and members, and pledged himself to fulfill the duties of his office conscientiously.

Mr. Harris was the recipient of a handsomely engraved gavel, the presentation being made by Mr. MacBride, who remarked that the organization was beyond the stage of being called junior, and was really a stepping stone to the senior chamber. He paid tribute to the ex-president's work as a member of the senior board of directors.

A substantial increase in membership was shown in the secretary's report, presented by Captain Norman Foster. In September last year the membership was fifty-five, while today it had increased to 109, the report read. Ten standing committees were appointed, the most active of these being the mid-summer celebrations committee.

LARGE SUM RAISED

Over \$6,000 was raised from various sources during the two months of the celebrations. The report also traced the outstanding achievements of the organization during the past twelve months.

FINANCES SOUND

It was shown the chamber was in a sound financial condition by the report of Leslie Osborne, chairman of the finance committee.

Two delightful soprano solos were rendered by little Miss Elaine Harris, accompanied by Miss Patricia Cockell.

Mr. Savage asked for a return to God to solve the perplexing problems of youth today. He urged young people to take whatever job they could get, save their money, and they would eventually come out on top.

He decried the lack of physical fitness in the colleges, quoting an article referring to the provincial university. He maintained citizens were not taking an active leadership in the promotion of democracy. Leaders must set the example of personal sacrifice, Mr. Savage said. Mr. Sturgess moved the vote of thanks to the speaker.

REVISED VERSION

He who laughs last has probably had it explained to him.

Back after an absence of over a year and a half, Harold Lloyd scores solidly in the film, "Professor Beware," which will open today at the Atlas Theatre.

The picture, a typical Lloyd story, like those which have made him world famous, deals with his mad dash across the continent to arrive in New York in time to catch a boat sailing for Egypt. Broke, and out of a job, he starts the trip with a beautiful girl, Phyllis Welch, on his heels, and arrives at his destination after a myriad dizzy adventures, still broke, but now pursuing the girl.

CAPITOL "Three Loves Has Nancy" is the title of the gay, new romantic comedy at the Capitol Theatre, and Nancy is none other than Janet Gaynor in another of the small-town-girl roles which have made her one of the most beloved stars of the talking screen. Robert Montgomery is co-starred with Miss Gaynor and Franchot Tone.

WARN PARENTS ABOUT EFFECTS

Resolutions Passed by Anti-Vivisection Society—Celebrating Animal Day

The following resolutions were passed by the Canadian Anti-Vivisection Society at a full meeting of the board:

"In view of information received from England and other sources, as to the distressing effects of insulin, metrazol and cardiac shock treatments for the insane, this society warns parents and guardians and advises them against giving permission for such treatment.

"That this meeting criticize a letter from the C.B.C., Toronto, stating that the Department of Pensions and National Health controls all addresses on health matters, and takes objection to this attitude in view of the narrow and biased attitude of some members of the medical profession, and that the C.B.C. be advised accordingly.

"That this society condemn the constant stressing of the fear of disease, the effect being to make people disease-conscious, instead of health-conscious.

A message was read from the Duchess of Hamilton and Brandon, giving her objections to vivisection, vaccination, inoculation and immunization. Letters were also read from India, Spain and other countries acknowledging assistance through personal contributions. Further help is being afforded. Senior Solano's animal rescue work in Madrid is now centred in Alicante.

The case of John Marsh, arrested in Pennsylvania for refusing vaccination for his child, was reported upon by his attorney, who acknowledged a small donation towards the costs of the trial.

Halifax, N.S., requested help and advice in starting a society. It was decided to continue a winter programme of meetings. The annual celebration of World Day for Animals will be observed by a tea at the Sons of England Hall, Broad Street, Saturday, October 1.

ATTRACTIONS AT SAANICH'S FAIR

Continued from Page 1

The cattle sheds and stalls, the poultry house and new rabbit sheds are a great improvement on the old, although put up under pressure of time. The cattle stalls are much more up to date and offer increased accommodation for thirty head of cattle. The new rabbit sheds, immediately west of the Pioneers' Cabin, are much more commodious and have helped to attract the unusually fine exhibit of seventy cages.

The one serious loss was the destruction of the big platform, one of the best at any of the rural fair grounds on the Island. It will be replaced temporarily with one sent out from Victoria, which will be used today for the opening exercises and for the Highland dancing events.

Immediately after the formal opening this afternoon, Rev. William Crouch will present two life-saving medals.

SPECIAL DISPLAY

Far exceeding expectations is the entry in Section 17. A class sponsored by the Victoria Rotary Club agricultural committee for school children under eighteen years, this has attracted forty entries in beans and peas alone. There are also prizes for best collections of flowers in this section, so it makes a very attractive display. Harold Timberlake and J. A. Nunn are in charge.

Immediately beneath the platform are the competitive vegetable displays. Six entries make it one of the largest in the history of the fair, so it is a handsome addition to the hall. Flanking it on the north is a well-arranged egg exhibit.

E. W. White, E. M. Straight, L. E. Taylor and other judges of the garden and field crops were unanimous in their praise of the entries. Entries were most numerous, the quality on the whole better, they stated. This was due in part to the late date, partly to the special nature of the weather. Beans are three times more numerous in these classes; corn, thanks to the warm nights, is a strong class; scarlet runners, parsnips, carrots, marrows, squashes are all well-matured. On the other hand, the dry season had been rather hard on potatoes, but some nice entries are shown in Burbank and Columbia russets.

FRUIT DISPLAY

The fruit tables told their own story in magnificent plates of McIntosh, reds, gravensteins, peaches, pears and grapes. Down the centre of the hall are the flowers, a glorious competitive display of stocks, roses, zinnias, Michaelmas daisies and other late blooms.

GARDEN PRODUCE

The women of the district tell the story of industry and skillful housewife in tempting displays of bottled fruits, pickles, jellies, meats, fish, mayonnaise, soups, vegetables and other delicacies. The bread and cake display fills the entire south wall, there being eighteen layer cakes alone in addition to many bread, biscuits and pie entries.

The Indian exhibit, in charge of Father Cyr and Miss Helen Hagan, is exceptionally good, with home cooking, baskets, homespun yarns and hand-knit heavy sweaters, hand-carved totem poles, embroidered pillow cases and towels, and some interesting Indian dance masks and carved figures.

In the balcony are the decorated tables, the women's needlework (including some beautiful examples of patch and log cabin quilts), and the photographic and school children's displays.

OFFERS AID IN CITY PROBLEMS

Chamber of Commerce Names Committee to Help With Power and Traffic

At a meeting of the board of directors of the Victoria Chamber of Commerce, held Monday, President Duncan MacBride and Vice-President J. V. Johnson were appointed representatives of the chamber to co-operate with the City Council in any way possible in the power and transportation problems.

Mr. MacBride extended the senior chamber's congratulations to Conway Parrott and Tom Sturgess, newly-elected president and vice-president, respectively, of the junior chamber. The chairman offered his co-operation to the junior group at all times and said he hoped they would work hand in hand in doing good work for the community.

A communication from the Victoria Cycling Club was referred to the donations committee for report. The club informed the chamber that a board track for cycle racing was now under construction on Douglas Street, north of Topaz Avenue.

G. Hamilton Harman gave a report of the Agricultural Fair at Duncan, which he attended recently as representative of the Victoria chamber. He said it was a very creditable exhibition and attracted many fine exhibits.

URGES LARGER SCHOOL AREA

V. L. Denton Gives Address On Greater Victoria Educational District

The advantages to be gained by a larger unit in the administration of school districts with special application to Greater Victoria, were stressed in an address given by Principal V. L. Denton, of the Victoria Normal School, in an address before the Kiwanis Club yesterday in the Empress Hotel.

The speaker said that it was not necessary to carry out a scheme of a union of the municipalities making up Greater Victoria before launching upon the new school administration plan.

Victoria, he felt, would benefit materially by the carrying out of the amalgamation of the various parts of the district into a larger school unit.

There were other difficulties in some of the outlying parts that would be solved by the carrying out of the plan. Included in this was the position that Saanich found itself in, where there was uncertainty as to where to erect a new high school. If it should erect one at all, Dr. Denton stated.

PRAISE FOR PEACE RIVER

In connection with the movement for consolidation of schools, reference was made to the new District of Peace River, which Principal Denton considered deserved high praise for the spirit shown. Although a scattered district in point of population, the initiative had been taken by the residents. The attempt made there at unification of school districts had been followed by an improvement in the educational line.

Victoria had never had a supervisor of primary work. Vancouver had had one for years. The absence of such a supervisor resulted in a lack of stimulation and help in connection with school administration. In Seattle, there was one primary supervisor and ten others working under him.

PLAN IS SPREADING

Dr. Denton showed the plan of extension of the school districts was spreading throughout Canada, and he instanced Nova Scotia as among the provinces affected by it. New Brunswick and Ontario had enlarged their districts. Saskatchewan had been given the power to carry a board track for cycle racing, was now under construction on Douglas Street, north of Topaz Avenue.

G. Hamilton Harman gave a report of the Agricultural Fair at Duncan, which he attended recently as representative of the Victoria chamber. He said it was a very creditable exhibition and attracted many fine exhibits.

North Saanich, on Vancouver Island, had organized in 1936. The Islands, off Vancouver Island, had made a start, and he hoped to see Victoria, Oak Bay, Saanich and Esquimalt take the steps to unite in a school district.

Heating

A BIG ITEM IN THE HOME

"All the comforts of home" must include as the very first essential "adequate heating". If the home is not warm and free of drafts during the heating season then the other "comforts of home" cannot be enjoyed.

A "Dominion" heating and conditioning system will give you the greatest possible comfort not only with uniform draft-free heat, but also with air-conditioning.

Either a "DoRad" or an "Arco" will provide a neat-looking and efficient boiler. The attractive "Corto" radiators allow for the free radiation of their heat thus giving you a warmer house.

The "Arco" air-conditioner will add further to your comfort by circulating through your home filtered, humidified air. The "Arco" is designed to work in conjunction with "Dominion" Heating systems.

Consult your Heating Engineer for further particulars. If you are considering modernization, and financing is a problem, your Heating Engineer can obtain for you the easy payment terms of the Home Improvement Plan through our affiliated company, Heating and Plumbing Finance Limited.

developments of a momentous character.

While nothing happened yesterday to relieve the tenacity of the situation, there remains an element that could be introduced that might conceivably swing the balance in favor of a peaceful settlement. That would be the implementing of President Roosevelt's plea for peace by an official statement on the part of the United States that she will stand by Great Britain and France and insure the settlement of the Sudeten issue on the basis of Czechoslovakia's promise to cede the area to Germany. The United States may be wedded to neutrality so far as European affairs are concerned, but the impasse that has arisen threatens the peace of the world, and if war comes it is only a question of time before America will be driven into the struggle. In that case, our citizenship should take the long view. The United States does not want to see Europe in a death struggle. She cannot take a course which might well prevent such a development, and incidentally earn the thanks of all humanity. The United States now sees events train more momentous even than those during the fateful Summer days of 1914. It is for that country to decide, as decide she must sooner or later, what part she will play in the struggle between authoritarianism and freedom.

A further misconception relates to the actual population of the region. It is not solidly German. On the contrary there are many parts of the Sudeten area where the Czechs predominate. Nor would the transfer of this whole region to Germany satisfy the Wilsonian principle of

SURVEYING IS ADDRESS TOPIC

F. C. Green, Surveyor-General, Speaker at Historical Group Meeting

F. C. Green, surveyor-general of British Columbia, was the speaker at the meeting of the Victoria section of the British Columbia Historical Association last night in the Provincial Library. The subject of his address was "Forty Years Surveying in British Columbia."

Mr. Green reviewed briefly conditions surrounding early surveys in the province, when the mere possession of surveying instruments was the badge of efficiency insofar as the Government of the day was concerned. A great deal of survey work on the rough portions of the country was carried out with a sight compass because of inaccuracy of chaining with the link chain, then universal with survey parties.

MAPPING ISLAND

The surveyor-general discussed the work of his department and the types of work being carried out at the present time. The Government, he stated, had almost completed mapping the whole of Vancouver Island and a great deal of the work was done by aerial photography especially for the production of topographical maps. Topography, he explained, was merely an inventory of the natural resources of the province and some valuable maps had been made at exceedingly low cost through the co-operation of the Dominion Government.

Mr. Green said his department now had approximately 100,000 air photographs taken in recent years by the Royal Canadian Air Force at no cost to the province. The proving of these air photographs would, he said, eventually save thousands of dollars to the province and to industry. By the use of air maps it was possible to determine a right-of-way for roads, railways, determine water power possibilities and to indicate accessibility to timbered lands.

Mr. Green was introduced by Dr. T. A. Rickard, president of the society, and cordially thanked at the conclusion of his address.

TRY IT
Of all the terrors known to man the greatest, I assert, is to wear a fifteen collar. A Summer's day, and with the setting sun, the zenith, like a falling star, On Lemnos, the Aegean Isle.
Vulcan never forgot this epochal flop.
When he grew great and famous, and his mother was glad to own him, he presented her with a magnificent throne.
Proudly, Juno esconced herself in it—and was at once locked tight within ingeniously contrived invisible chains from which only Vulcan could free her—which he did, of course, but not until he had had a little fun.
In any case, Vulcan would have been quite a character.

EARLY SYMPTOMS AND TREATMENT OF INFANTILE PARALYSIS
Another year has passed and it must be admitted that the various methods used to prevent infantile paralysis (polio-myelitis) have not proven generally successful. However, it is well that all should know how the disease is contracted or transmitted from one child to another.

The disease is transmitted by direct or indirect contact with the patient, principally by contamination with the infected secretions of or discharge from the nose, mouth and throat. Whether infection occurs by direct contact—kissing, or by eating or drinking out of the same dishes, or by inhaling droplets which have been coughed or sneezed into the atmosphere around a patient, or by inhaling infected dust, the fact remains that it is transmitted from person to person.

The early symptoms resemble other ailments—fever, headache, restlessness, perhaps vomiting—but stiffness and pain in the back of the neck and sometimes going down the spine should make parents send for their physician at once. A puncture of the spinal cord at a point in the small of the back enables the physician to examine the spinal fluid and thus learn whether infantile paralysis is or is not present. As some parents object to the puncture, the physician, if all considers the case as infantile paralysis for the next week or ten days.

What about treatment? The main thought is the prevention of paralysis. An editorial in a few weeks ago in the Journal of the American Medical Association stated: "Complete rest is so important that it is usually far better to have the child in bed at home when the disease is first suspected than to take the patient any appreciable distance to hospital. When the patient is at home, bed or moved as little as possible a majority in whom the disease has not progressed beyond the early stages escape paralysis entirely. Should the patient have paralysis, especially of arms and legs, the affected part should be put in a cast at once. Early rest of a weakened muscle will help prevent permanent crippling."

As there is no special remedy for the early stages of the disease, absolute rest is the keynote of treatment. "Pleasure of Poetry" Is Theme of Fine Address

Mr. Alan Crawley Delights Large Audience at Women's Canadian Club Meeting With His Talk on Special Field of Literature

"At a time when our hearts are distressed and harassed, I do hope that through me some little pleasure in poetry may escape to you," said Mr. Alan Crawley, in the introduction to his delightful address on the subject of "The Pleasure of Poetry," given before the Women's Canadian Club in the ballroom of the Empress Hotel yesterday.

Mr. Crawley was introduced by the club president, Mrs. Harold Campbell, as "one of those rare persons who finds time to devote himself to things literary." He has given much time and attention to radio, newspaper and literary criticism and is a keen student of poetry.

Mr. Crawley dates his introduction to the field of poetic literature to twenty years ago, when he first purchased a book of poems in London. This book, he said, opened for him a new world and he made the discovery of the pleasure there is in English poetry.

RECITES POEMS

By means of many references and in the recital of choice examples of the works of contemporary and other writers, Mr. Crawley opened for his listeners the pages of his extensive anthology. He quoted poems by Walter de la Mare, Rupert Brooke and W. B. Yeats, saying of this last writer, "no one has attained the literary status of W. B. Yeats. There were recited love lyrics by Siegfried Sassoon, Stephen Spender, one of the most brilliant of the moderns; Lionel Johnson, James Stephens, Padraic Colum and Martin Armstrong.

He spoke of the artist in his "word picture gallery," and among these included Floris Clark McLaren, Victoria; J. E. H. MacDonald, another Canadian poet, and Doris Ferne, Victoria. In some ways, he continued, it was the role of the poet to be a leader, for the poet felt acutely the emotional reaction which others feel vaguely. There was a tendency, Mr. Crawley continued, to disparage modern poetry, but this was filling

a very definite place in literature. He quoted Nevinson's "La Marche des Machines," and work by Richard Church as examples of the poetic products of a machine age. Ernest Walsh was a surrealist poet, and the speaker quoted Walsh's "A Story for Sending a Sick Man to Sleep" as an example of this type.

"We have reason to be proud of Canadian writers," Mr. Crawley said, "for they are forging ahead. We should support them and encourage them by our interest." Miss Audrey Alexander Brown, well-known British Columbia poet, who is among the foremost of Canadian writers in this field, was given great praise by the speaker.

On behalf of the club, Miss Eugenie Perry moved a hearty vote of thanks to Mr. Crawley for his interesting, informative and wholly delightful address.

NEXT MEETING

Mrs. Harold Campbell announced that the next meeting of the club would be held on October 11, when the speaker will be Captain Carl J. Keitchum, special correspondent for The London Daily Express.

She also announced that the club's bridge and mah jong party would be held at the Oakbay Beach Hotel on October 18.

Mrs. T. H. Johns was the soloist, her two delightful numbers being "When I Have Sung My Songs" and "Minor and Major," with Mrs. C. C. Warn in the role of accompanist.

Bursary Will Be Presented

The Women's Canadian Club has awarded one of its \$100 bursaries to Miss Marian Robinson, 791 Cave Street, Victoria, who attended Ex-Quinnall High School last year. This announcement was made at the Women's Canadian Club meeting yesterday afternoon at the Empress

Plans Are Made for Annual Tea Party

The suggestion of observing a world day for animals, in honor of St. Francis of Assisi, was made in Czechoslovakia and formulated in England nine years ago. In Victoria it will be commemorated by a tea and sale of goods which include home products and numerous attractive articles.

Mrs. J. Iverson and Mrs. J. W. Watson will be in charge of superlatives and Miss O. Bossi of the grab bag. Miss M. Landman will appear in a costume of one hundred years ago, which will afterwards be auctioned, with other articles. H. Wood will act as salesman. Bags, books, ornaments, scrapbooks, trinkets and useful commodities will be obtainable. Mme. Vivonnet will be in charge of tea tickets, but admission to the hall is free. A ladies' committee is in charge of the tea. Donations may be made to Miss Dora Kitto, honorary secretary, 315 Sayward Building.

The day is Saturday, at the Sons of England Hall, Broad Street, from 3 to 5:30 p.m.

Miss Gladys Shrapnel, who is in charge of the musical programme, will contribute a violin solo. She will be assisted in orchestral numbers by Mrs. R. P. Clowes, Miss Barbara Clowes, Miss Kathleen Fallowell and Miss Mary Drury. Miss Sheila Boyd will act as tea cup reader.

The Parent-Teacher Association will hold an exhibition of Canadian crafts in the Sir James Douglas School auditorium, commencing at 2 p.m. tomorrow. Mrs. James Cameron, president of the association, will open the exhibit and it is hoped that Mrs. J. D. Gordon, who is herself a pioneer and an authority on pioneer crafts, will be present and say a few words.

HOOKED RUGS
There will be working demonstrations of three types of hooked rugs. The old colonial crocheted and figure type will be in charge of Mrs. J. Erickson, of United Empire Loyalist stock. Mrs. Clifford Johns will show rugs made from home-dyed British Columbia wool, hooked in Indian designs and colors, while a third exhibit will show an interesting adaptation of the old hooked rug rug, using Persian and Arabic designs and colors to obtain harmonious and artistic rugs from otherwise useless rags.

Mrs. William Peden, president of the Victoria Women's Institute, will demonstrate glove-making, using English gloving leathers. Mrs. Adam will show a new craft learned on a recent visit to Seattle, and two students of the Academy of Useful Arts will show ragging and smoking.

Mrs. J. L. White, who has worked so unerringly to establish the Weavers' Guild, will demonstrate weaving and exhibit beautiful woven articles.

SPINNING
There will be spinning demonstrations, first with the surprised spindle, which, though older than Pharaoh's time, is still used from Cashmere to the Andes, and from Iceland to the Balkan States. Mrs. J. M. Findlay, of the Lake-Hill-Women's Institute, will operate a treadle spinning wheel similar to that used by "Priscilla the Puritan maiden," and Mrs. E. F. Arnold will show the big wool wheel, from which John Hargreaves received the inspiration for the spinning-jenny.

There will be no charge for admission and the P.T.A. will be glad to welcome everyone who is interested in the revival of old-time handicrafts.

THERE'S A REASON
"Pardon me, but I noticed at dinner that your husband smacks his lips quite loudly when he eats. Believe me, that's one thing my husband never does."

"No, I suppose not. There is a difference in cooking, you know."

Beaux-Arts Reception

An informal reception was held last evening by the Beaux-Arts Society in the south ballroom of the Crystal Garden, the affair being arranged to meet new members and welcome the director, Mr. Raymond Guyler, and his wife, Miss Nancy Pritchard. Over twenty new members registered last night and more are expected at the "furniture show," to be held tonight at the club's new brightly-hued daisies, chrysanthemums and Michaelmas daisies, flanked by tall peach-colored tapered. At either end of the table were vases of zinnias. The delightfully informal evening was spent by the members, who numbered approximately 100, in chatting with the director and his wife and new members.

Stephen sent for Suzanne to come to his office.

DEAN TWIRLS CUBS TO GREAT WIN OVER PIRATES

CHICAGO HALF GAME BEHIND LEADERS IN CLOSE PENNANT RACE

More Than 42,000 Fans Watch Famous Right-hander Come Through With 2-1 Triumph—Hank Greenberg Hits Two More Homers To Move Within Two of Tying Record

Old Dizzy Dean pitched his greatest heart out and Chicago Cubs smacked into the thick of the National Baseball League pennant battle today.

With little else on the ball but his cover, Dean hurled the Cubs to a thrill-packed, 2-1 victory over the league leading Pittsburgh Pirates for a triumph which left the Cubs trailing the Bucs by only half a game, with two more games between the clubs scheduled for tomorrow and Thursday.

Diz wasn't in there at the finish. Big Bill Lee, taking the mound with two out in the ninth, retired the final Pittsburgh batsman as Diz trudged slowly to the showers. But it was Dean's victory all the way, a victory he called "the greatest of my life" and one which one him the acclaim of the 42,380 hysterical fans who jammed Wrigley Field.

Dean, in recapturing for an afternoon the glory that once was his in his St. Louis Cardinal heyday, allowed the Pirate sluggers just seven hits, their only run coming with Diz in the clubhouse. In the ninth inning, Woody Jensen scored on Lee's wild pitch, with the game ending seconds later as Lee fanned Al Todd for the final out.

PROVES COURAGE

Starting his first game since August 20 and called on to test his ailing, sore arm in a duel all-important to the Cub's flag hopes, Dean proved his courage. The victory was Dean's seventh as against one loss this year.

Brooklyn Dodgers and New York Giants divided a National Baseball League double-header, Giants winning the opener 5-3 and the Brooks taking the nightcap 5-1.

Two outstanding pitching performances, Jim Turner's eleven-inning three-hitter and Rookie Todd Early's four-hitter, enabled Boston to sweep a double-header from the Phillies, 2-1 and 4-1.

Cincinnati Reds squeaked Paul Dean's attempt for a third consecutive victory, driving him from the mound with ten hits in five innings and beating St. Louis Cardinals 3-1.

Hank Greenberg poked out his fifty-seventh and fifty-eighth home runs of the season as Detroit swept a double-header with St. Louis Browns 5-4 and 10-2.

With five games left to play, Greenberg put himself within striking distance of Babe Ruth's 1927 major league record of sixty homers in a single season.

Today's two homers hit off Pitcher Bill Cox in the first and third innings of the abbreviated nightcap, marked the eleventh time this season Greenberg has hit two or more homers in one game, thus bettering his own big league record for that feat. Darkness halted the second game after seven innings.

GOMEZ TRIUMPHS

Vernon Gomez, the old left wing of New York Yankees stopped Washington Senators with eight hits for his eighteenth win of the season, 8-2. Lou Gehrig of the Yankees hit his twenty-ninth homer of the season.

Bob Feller won his seventeenth game of the season, striking out eleven Chicago White Sox batters and allowing only five hits as Cleveland Indians took the first of a three-game series 6-1.

The Indians landed on Monty Stratton for eleven hits, including Jeff Heath's nineteenth home run of the season. The former Port William, Ont., boy added a double and a single to his collection.

Boston Red Sox bunched fourteen hits for eleven runs off two Philadelphia Athletics' pitchers to defeat the last place Mackmen 11-1.

Governing Body Favors Fourteen Clubs at Meeting

LONDON, Sept. 27 (AP).—The Royal and Ancient Golf Club, ruling body of golf in Great Britain, decided tonight to follow the lead of the United States in limiting to fourteen the number of clubs a player may carry in competition. The rule will become effective next season. The United States Golf Association adopted the fourteen-club rule effective this year.

The golf ball sub-committee stated that it felt it soon would be necessary to change the standard ball to reduce distance, but it decided to contact the U.S.G.A. before making any change.

BAYS DEFEAT BLUEBIRDS IN FINAL TUSSELE

Scores 16-11 Victory to Win City Intermediate Boxla Title

Weakened by the absence of their star defenceman, Jack Cummings, the Bluebirds Intermediate box lacrosse team dropped the play-off game and the city championship to the fast-passing James Bay aggregation to the tune of 16-11 last night at the Royal Athletic Park before a fair crowd.

Piling up an early lead in the first two quarters, the James Bay team reeled on their laurels during the third quarter to come back strong in the final frame with three more counters that clinched the closely-contested game.

Led by the two winners, E. Pridham and R. Mason, who bulged the net with two counters each in the first quarter, the James Bay boys led 5-2 at the end of the first quarter. In the second heat they came back again on the heels of Pridham's triple score to make the score 11-4.

In the third period, the Bays took things easy while the trailing Bluebirds banged four counters past the goalie, A. McKim, to narrow the lead. In the final frame both teams played an all-out game, with the Bluebirds desperately trying to whittle down the five-point lead.

WIDENS LEAD

Hampered by slippery grass underfoot, the heavier Bluebirds were outplayed by the shifty Bay boys, who sunk four additional counters to bring the final total to 16-11. In the last face-off Bill Bousfield, high scorer for the losers, was carried off the field with an injured shoulder after he was boarded heavily behind the Bluebird goal.

High man for the champions was E. Pridham, playing with a total of six goals for the four quarters. Bousfield totaled four counters for the Bluebirds.

The line-ups follow:
James Bay—A. McKim, W. Allen, N. Winterburn, R. Clark, Capt. A. Cullina (3), R. Mason (3), E. Pridham (6), D. Turner, F. Sargent, V. Sargent (1), C. Thomas (2), B. Dakers, S. Clark and D. Turner.

Bluebirds—M. Smith, N. Coates (1), E. Holyoak, W. Williams, Bill Bousfield (4), Jim Pickford (2), B. Gull, John Pickford (1), R. O'Connell (2), W. Coates, L. McCormick, E. Ball and B. Akin.

LETTERS TO THE EDITOR

FOOTBALL SITUATION

Sports Editor

Dear Sir—In regards to further developments re the proposed entry of the Elks Football Club into soccer in this city, I would appreciate if you would print this letter.

In fairness to the public and the players, we feel the following should be placed before them. Yesterday afternoon (Sunday) a committee from the Elks F.C. composed of Messrs. Yoxall, Bloomfield and Hall, called on the undersigned with the following ultimatum that the Saturday Football League appoint the first two above-mentioned men to the position of president and secretary of the league and J. Hall as manager of the Victoria United F.C.

This ultimatum was to expire at 7 o'clock tonight (Monday). Failing acceptance of this scheme, they would affiliate under the name of the Elks F.C. and proposed to sign as many of the players of the Victoria United as possible.

We leave it to the public and players whether the high ideals so publicly propounded by them. That they were in soccer for the love of the game and lift it to a higher level and not for any position, etc. Players who consider signing would be well advised to wait further developments before placing their names on any form.

Yours sincerely,
J. F. MESHER,
Secretary Victoria and District Football League
Victoria, B.C., September 26, 1938.

Snead Winner of Westchester Open Golf Tournament

Finishes 108-Hole Tourney With Score of 430 to Take Top Money of \$5,000—Increases Earnings From First of Year to \$17,572.83—Burke Ends Up in Second Position

WHITE PLAINS, N.Y., Sept. 27 (AP).—Hitting the biassed jackpot, professional golfer has had in recent years, Sam Snead today took down top money of \$5,000 in the \$15,500 Westchester 108-hole open golf tournament with a score of 430 and set a new record for one-year prize winning.

The first cheque brought his earnings since last January 1 to \$17,572.83, more than double that of his closest rival. It also was more than \$2,000 better than the previous mark, set by Horton Smith in 1929, when he collected \$15,500.

In the last rounds, the Canadian open champion from West Virginia showed that he had everything on the ball when the pressure was on and the prize worth while. Snead won the tournament, Stanley Horne of Ottawa and Bob Gray of Toronto, wound up far off the pace.

Horne fired rounds of 73 and 77 for 453 and Gray shot 79-74 for 459.

BURKE IS SECOND

Snead's finish and Billy Burke's start on this final day proved too much for the popular Cleveland veteran who won the 1931 United States open championship. Billy, who had slid from first place to fifth when he fizzled to a 78 this morning, improved on that by ten strokes with a closing 68. That was good enough only for second place at 432 and \$2,000.

Paul Runyan, United States Professional Golfers' Association champion, missed an eighteen-foot putt on the home green for a 70 and Bryan Nelson missed a ten-footer at the same spot for the same score, so they wound up in a third-place tie at 434 and split \$1,800. Ben Hogan of Purchase, N.Y., shot a 71 and 436 for 700. Chandler Harper, twenty-four-year-old Virginia open champion, fell off to a closing 73 for 437 and \$600. United States open champion Ralph Guldahl, Metropolitan open champion Jimmy Hines and veteran Mike Turnesa tied at 439 and split \$1,350.

The only Canadians to finish the tournament, Stanley Horne of Ottawa and Bob Gray of Toronto, wound up far off the pace.

Horne fired rounds of 73 and 77 for 453 and Gray shot 79-74 for 459.

MRS. BROWN IS MEDAL WINNER

Draw for first rounds of match play follows:

CHAMPIONSHIP

TIME OUT!

By Chet Smith

You certainly play a bang-up game, Mrs. McClusky!

LIFE'S LIKE THAT - By Fred Neher

"Don't get excited... The warden is just changin' his office."

Jane Dixon Says:

PROBLEMS IN BRIEF: THE WOMAN WHO DISCOVERED THAT THE "EXTRA WORK" HER HUSBAND HAD TO DO AT THE STORE MEANT GOING OUT WITH A GIRL FRIEND AT NIGHT—A GIRL OF EIGHTEEN WANTS TO KNOW WHETHER SHE'LL EVER STOP CARING FOR A MAN WHO WAS A VACATION VISITOR TO HER TOWN—WHICH IS THE BETTER, EXTENSIVE TRAVEL OR A COLLEGE EDUCATION?

The knottier the problem we have to solve the more exercise we give our brains and develop our characters.

A problem is an opportunity for moral and mental growth.

Mrs. Dan T.: Your husband told you he had to go back to the store after supper and "do a little extra work." After he had gone you decided to call on a friend in another part of town. You boarded a street car and were looking out the window when you saw your husband pass in his car with a girl who clerked in the store; they were headed away from town. You've said nothing about this to your husband, although it was after midnight when he came in from doing that "little extra work." My advice?

Tell your husband quite frankly, without anger, without a trace of accusation, exactly what you have told me. If he flies into a tantrum, he has a guilty conscience. If he offers an acceptable explanation in a rational manner, accept it and pray there will be no next time.

Eighteen: Of course you'll get over "caring so desperately" for the young man who came to your town on his vacation, and left you desolate. Lots of other interesting and likable young men will come to your town, and there, added to the ones already living there, will ring down the curtain on an unfortunate attachment. On places where your young crowd are having fun, join in the merry-making, and before the first red leaf of Autumn is on the tree, you'll have no more than a dim memory of the vagabond visitor.

Freshman: You are seventeen, and have an opportunity to travel quite extensively in this country with a relative who will pay all your expenses, but to do so you will have to give up college. Which do I think is the most educational—travel or college?

My vote is cast for college. You are very young and have lots of time for travel. You may travel all your active life, but after a few years it will be pretty hard to go back to college. A broad, formal education is the very best preparation possible for enjoying the things you see and the places you go. It gives meaning and depth, color and romance to what otherwise might be merely another flat surface.

New Westminster Lacrosse Team to Play Prairie Squad Next

NEW WESTMINSTER, Sept. 27.—The British Columbia lacrosse champions, New Westminster Adanacs, will leave here Saturday night for Medicine Hat, Alta., to be announced by officials of the British Columbia Lacrosse Commission tonight.

The Adanacs will play a sudden-death game with Medicine Hat, Alberta champions, on Monday, and the winner will journey to Toronto, Ont., where they meet either Cornwall or St. Catharines for the Dominion championship. The first game of the best-of-five series for the Mann Cup, emblem of Canadian lacrosse supremacy, will be played in the Maple Leaf Garden, Toronto, October 1.

The schedule previously announced by the Canadian Lacrosse Association, said the Pacific Coast team would play off with the Manitoba champions at Winnipeg, October 3, after the game at Medicine Hat, but failure of the Manitoba Lacrosse Association to effect a financial compromise with the parent body necessitated the abandonment of Manitoba's participation in the national playdowns.

COMMISSION TO CONTROL BASKETBALL

Formation of New Body Expected to Materialize at Next Meeting

The latest move to iron out all the basketball troubles existing in the city these days is the formation of a Basketball Commission, one which will take complete control of the game in Victoria for the 1938-39 season. That has the solution reached by members of the Victoria Dominions Club and officials of the Victoria and District Basketball League when they met members of the City School Board last night at a meeting held in The Colonist board room.

The commission is not yet formed but will be at a meeting of the Dominions' officials and the league executive in The Colonist board room tomorrow evening at 8:30.

Last night's meeting ended up very peacefully and never at any time did the parties concerned get into any heated arguments. Most of the time was devoted to the allotment of the Victoria High School gymnasium.

President Frank Shandley, of the city league, stated that he knew an agreement could be reached with the Dominions if the executive would listen to reason and go through the right channels. Johnny Johnson, Dave Nicol and "Billy" Bland, of the Dominions, said that their club would be willing to co-operate with the league as far as the gymnasium was concerned.

That the Dominions will enter the senior "A" division of the league is now practically a foregone conclusion. This means that a four-team circuit will be in operation with the Royals, Victorians and Northwestern Creamery being the other three clubs.

OTTAWA, Sept. 27 (AP).—Six four-member teams made up of Canada's finest women golfers will play over exclusive Royal Ottawa Golf Club's rolling fairways tomorrow afternoon in the first day's play of the inter-provincial team match for the Canadian championship.

The inter-provincial matches will be played on a thirty-six-hole medal basis and eighteen holes will be played each day. Teams represent the Maritime Provinces, Quebec, On-

ario, Manitoba and British Columbia. The sixth team is an inter-sectional aggregation formed by four Westerners—Patricia Arnold, of Calgary; Margaret Esson, of Saskatoon; Lillian Boyd, of Vancouver, and Mrs. Gordon Onantz, of Winnipeg.

The first twosome will tee off at 11:30 a.m. (M.S.T.) tomorrow, with Mrs. A. B. Darling, of Montreal, star of the Quebec team, playing with Miss Arnold. Ada Mackenzie, of Toronto, member of the Ontario team, will play around with Mrs. John Rogers, Winnipeg ace on the Manitoba team and present Canadian open champion.

IVAN JOHNSON IS SIGNED UP

Veteran Hockey Player Will Manage the Minneapolis Millers

MINNEAPOLIS, Sept. 27 (AP).—Ivan (Ching) Johnson, former defence stalwart with New York's National Hockey League club and one of the game's colorful figures, signed today to manage Minneapolis Millers, of the American Hockey Association.

Paul London, president of the Millers, announced the player who came to be known as "the man of a thousand stitches" had signed "to pilot the team this season," indicating it was a one-year contract.

Last winter, when Johnson, a native of Winnipeg, wore the New York American livery, he was below the form he had shown in his eleven straight years with Lester Patrick's New York Rangers.

Although the ever-smiling Johnson was given considerable credit for "parking" the Americans into the Stanley Cup finals, the hockey-wise figured it was his last year in the big time. Ching admitted to forty years.

BUILDING IN CITY IS TERMED GOOD

Home Construction in British Columbia Seen as Highest in Canada by Visitor

Home construction in British Columbia was seen as leading Eastern Canada building figures by a wide margin, by Major L. L. Anthes, first vice-president of the National Construction Council and former president of the Canadian Manufacturers' Association.

"I only wish things in the East were as active in building circles as they are in Victoria and Vancouver," Major Anthes said in an interview at the Empress Hotel yesterday.

Active as a member of the management committee of the Canadian National Construction Association, Major Anthes is also on the executive of Ducks Unlimited, a Canadian body, formed for the purpose of conserving bird life throughout Canada. The bulk of the latter's activity has at present been confined to the Prairie Provinces, the official stated.

LIBRA
If September 28 is your birthday, the best hours for you on this date are from 9:30 to 11:30 a.m.; from 1:30 to 3:30 p.m., and from 7:30 to 9:30 p.m. The danger periods are from 7:30 to 9:30 a.m.; from 5:30 to 7:30 p.m., and from 9:30 to 11:30 p.m.

Numerous pleasant surprises are apt to make this an unusually interesting day. Housekeepers need not be surprised if they have unanticipated guests, for there is likely to prevail among their friends an urge to make impromptu calls. Obstacly, due to numerous people being wedded to their individual opinion, will be the primary cause of many arguments, a great deal of intolerance and much unpardonable prejudice. You must maintain a liberal attitude towards everyone you contact. If you wish this day to be sunny and happy, it is good judgment for you to give consideration to any plea or plan that might be submitted to you for reviewing purposes. If you are wise you will be just as ready to follow some unwritten law as you are to obey those that are legally recognized. Avoid any form of rough-and-tumble play for accidents are liable to originate from rough frolicking. Married and engaged couples, as well as those who have set their affections on a certain person, must let unselfishness rule their thoughts and actions.

If a woman, and September 28 is your birthday, you should find work that will be not only interesting, but congenial to you. You ought to be a most efficient worker, and possess the genius of leadership. Your greatest fault may be that you are unduly suspicious or of an extremely jealous disposition. There are many indications that the time will come when you can enjoy most of the comforts of life. Through office, educational, laboratory or missionary work writing music, acting or selling your financial condition may be such as to make you very happy. From all indications your marital outlook is very bright, with plenty of signs that it will be filled with good fortune.

The child born on September 28, requires a happy environment, with plenty of love and congenial companionship, for its proper development. Marked ability, with lofty aspirations, help to make many children born on this date outstanding successes.

If a man and September 28 is your natal day, if you avail yourself of your power to do good, and temper justice with mercy, your personal affairs are likely to prosper. As an engineer, geographer, scientist, chemist, lawyer, doctor, actor or author fame and prosperity are likely to be your well-earned rewards. (Copyright, 1938, by Bell Syndicate, Inc.)
